

## BUDGET REFORM for STUDENT LEARNING

We are a non-partisan group of Lower Merion Township citizens who are concerned about the future of our public school system. We believe that the current school board is making decisions driven by a desire for immediate gratification (New Schools Now!) that will significantly increase costs with no increase in learning and to the detriment of future educational programs. We are organized with the objective of causing the Lower Merion school board to be fiscally transparent, fiscally responsible, and education driven. If you believe that the school board should embrace these attributes, please contact us at the "Email Me" link to have your name added to this list.
